

Get total peace of mind by adding Business Class Email Archiving to our hosted email products. Administrators can quickly restore lost email, take advantage of sophisticated search tools, and protect your vital email data — without extra software or expensive hardware.

Key Features

You don't have to struggle with email storage anymore. Businesses of all sizes can benefit from Business Class Email Archiving's secure, affordable email storage system. Our hosted archiving solution addresses the most troublesome aspects of long-term email storage:

Backup

- Delete email and declutter inboxes with unlimited backup
- Reduce inbox folder management via automatic storage of inbound and outbound messages
- Protect vital business information contained in email with secure, on-demand storage

Legal Discovery

- Maintain optional retention periods for easy policy management
- Search, retrieve, and export requested messages in seconds not days
- Store metadata, body, and attachments for each message

eRecovery

- Restore lost messages in seconds
- Manage settings and search from a simple, web-based control panel
- Access your email archive anywhere with an internet connection

Email Retention

- Start building your corporate policies with a solid archiving solution
- Implement archiving with no upfront costs or software to download
- Export data on archived messages for activity monitoring

Archiving Dashboard

Manage from a secure, web-based dashboard. Data is safe with SSL encryption.
